

Millennium Falcon Instructions

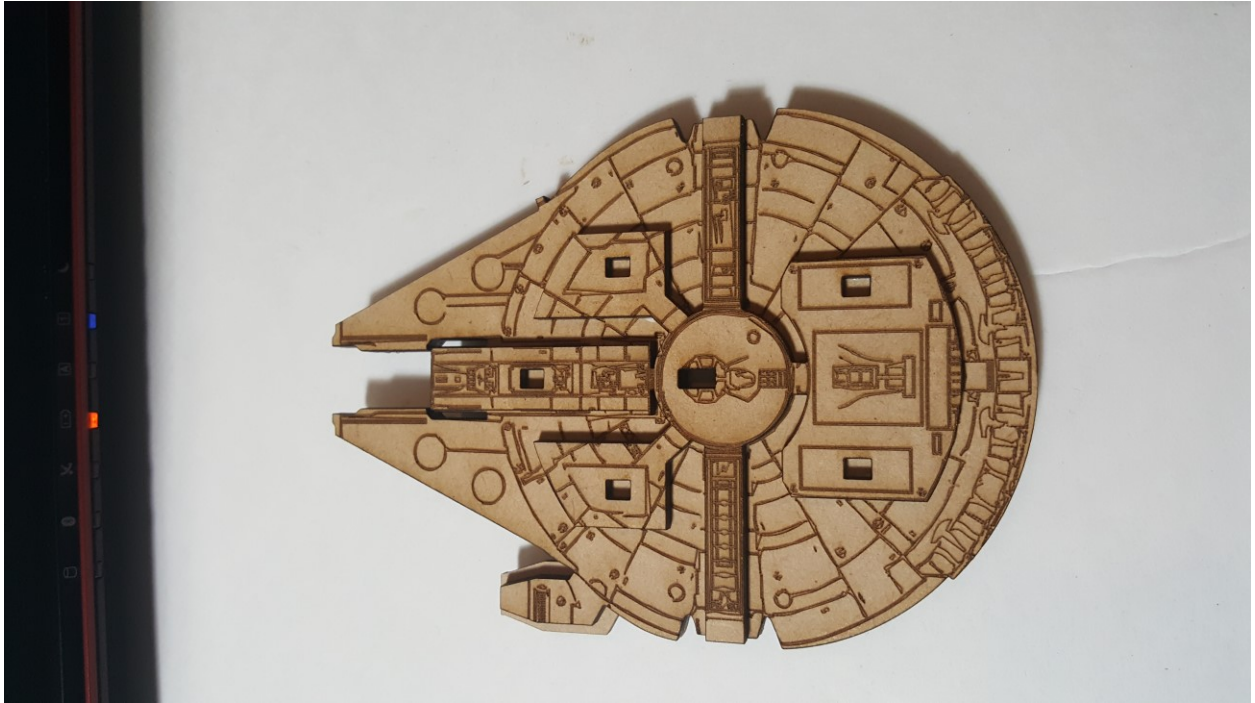

This is the body with the top and bottom detail pieces.

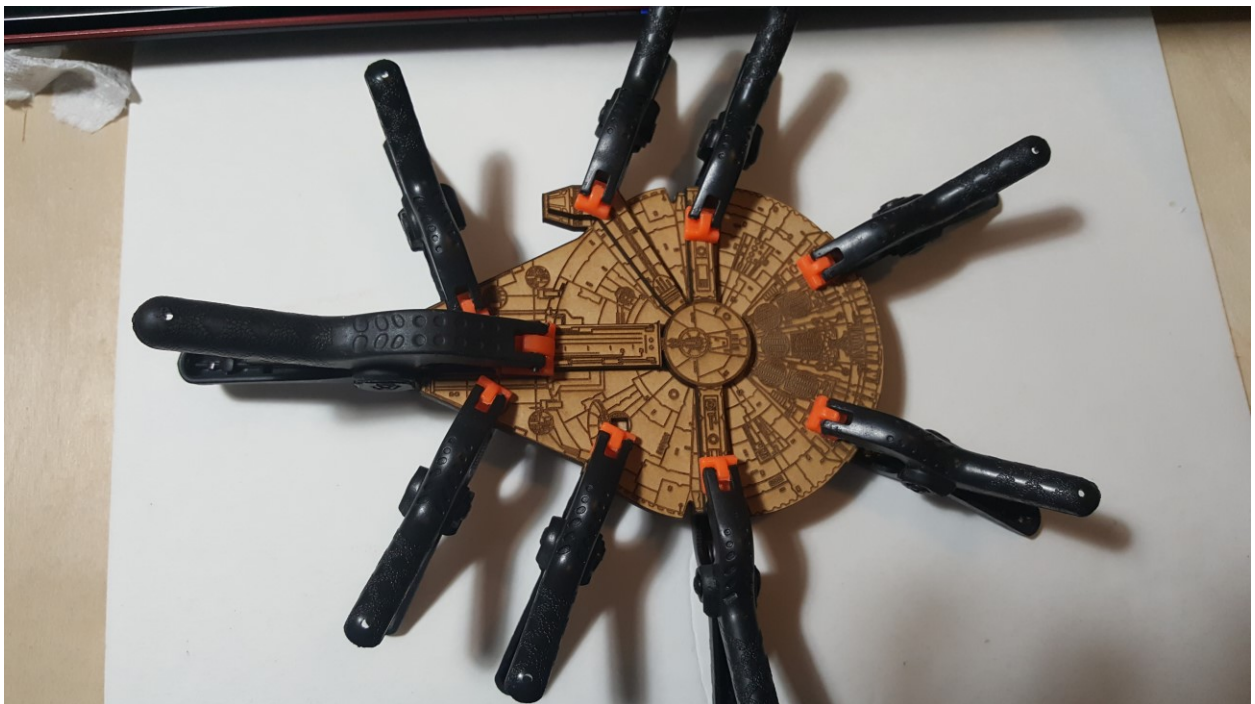

Top detail piece glued in place.

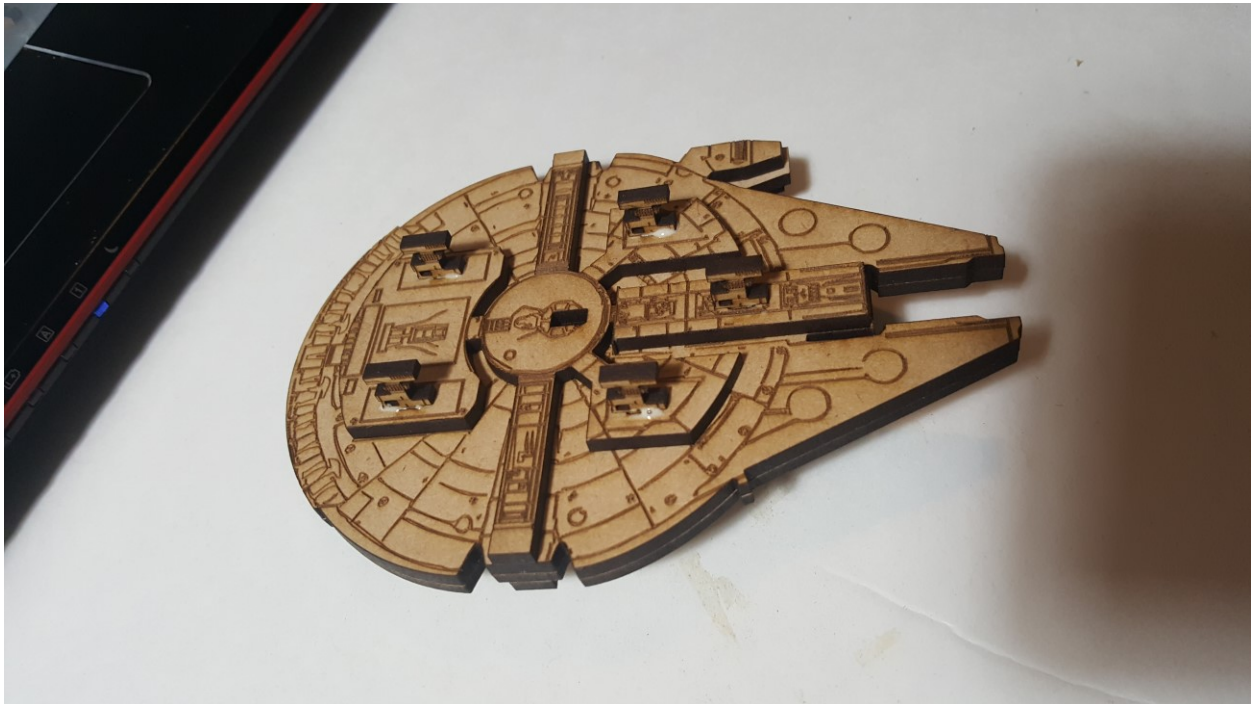

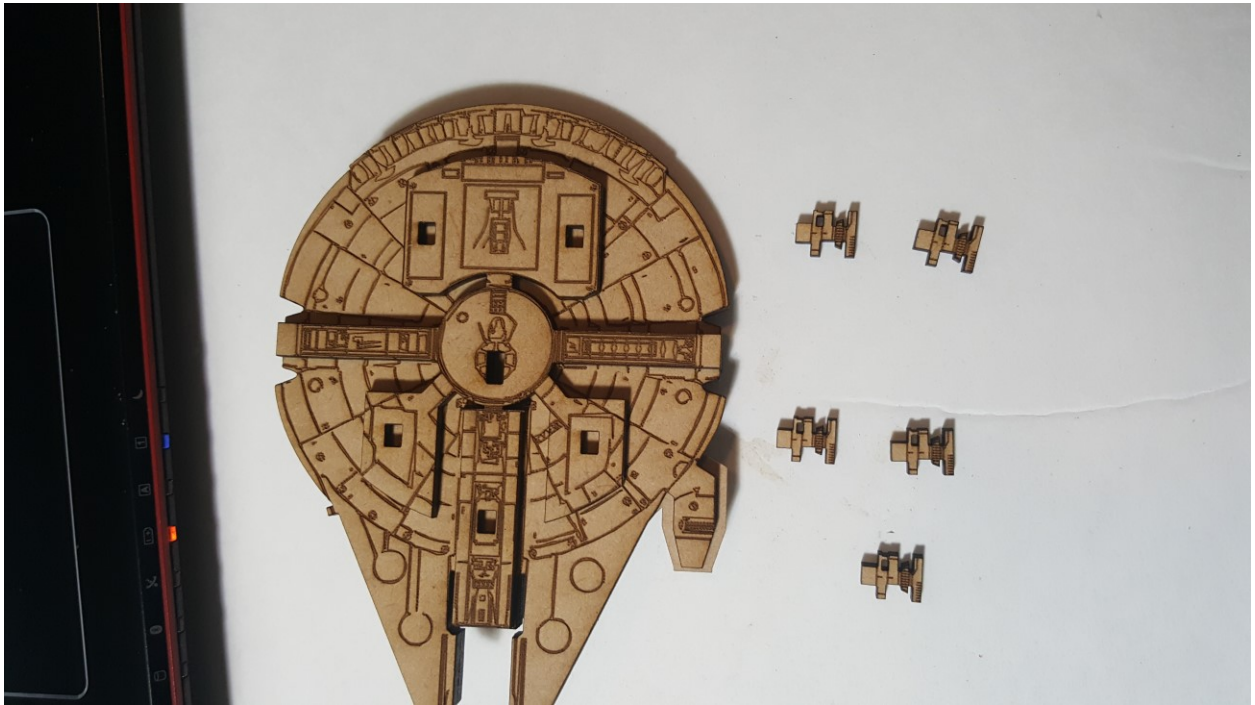

Bottom detail piece glued in place.

If you have clamps, use them. You can also place books or other weights on top to make sure these large flat pieces stick together properly. By the way, these clamps are cheap and you can never have too many in various sizes. It really makes this work a lot easier.

Landing gear.

Radar Dish and support.
